

AWAS to lease three new A320 passenger aircraft to Aegean Airlines

Fleet modernisation and expansion via Purchase and Leaseback transaction

Dublin, 12th February 2015

AWAS announced today that it has agreed to lease three new A320 passenger aircraft to long-time customer Aegean Airlines. These aircraft were previously ordered by the airline directly from the manufacturer and will be part of Purchase and Leaseback transactions with AWAS.

Eftichios Vassilakis, Vice Chairman Aegean Airlines commented on the deal, "We are very pleased to expand our already strong relationship with AWAS. These new A320s will assist us to serve our expanding route destinations, further improve our efficiency and continue to provide our customers with a leading level of comfort and service."

Ray Sisson, President & CEO AWAS commented, "AWAS is proud to have been chosen again by our long-time customer Aegean Airlines to provide this fleet solution for them. Core to our unique business model is identifying airlines early with strong future potential, and then developing a long-term relationship...growing with them as they expand and succeed. Aegean is a perfect example of that strategy in action."

AWAS has had a strong business relationship with Aegean Airlines for over 15 years, originally providing 737 Classics and then migrating them to modern A320 family aircraft.

About AWAS

AWAS is one of the world's leading aircraft leasing companies. Our team of industry professionals serves every major and developing commercial aviation market around the globe from our Dublin headquarters and offices in New York, Miami, and Singapore.

AWAS owns a portfolio of more than 300 modern aircraft with 20+ aircraft on order from Airbus and Boeing including a number of next generation aircraft. The aircraft portfolio is on lease to over 110 airline customers in 50 countries. The AWAS fleet features a full range of the most popular aircraft types which includes both narrow-bodied and wide-body aircraft.
