FORWARD-LOOKING STATEMENTS

This document contains “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended. These forward-looking statements relate to matters such as our industry, business strategy, goals and expectations concerning our market position, future operations, margins, profitability, capital expenditures, liquidity and capital resources and other financial and operating information. We have used the words “anticipate”, “assume”, “believe”, “budget”, “continue”, “could”, “estimate”, “expect”, “future”, “intend”, “may”, “plan”, “potential”, “predict”, “project”, “will” and similar terms and phrases to identify forward-looking statements. Forward-looking statements reflect our current expectations regarding future events, results, or outcomes. These expectations may or may not be realized. Some of these expectations may be based upon assumptions or judgements that prove to be incorrect. In addition, our business and operations involve numerous risks and uncertainties, many of which are beyond our control, which could result in our expectations not being realized or otherwise materially affect our financial condition, results of operations and cash flows. Any such forward-looking statements are not guarantees of future performance and involve risks, uncertainties and other factors that may cause our actual results, performance or achievements, or industry results, to vary materially from our future results, performance, or achievements, or those of our industry, expressed or implied in such forward-looking statements. All amounts expressed in “USD” or “dollars” refer to U.S. dollars.

RESULTS ANNOUNCEMENT

We present management's discussion and analysis of the financial condition and results of operations for the six months ended June 30, 2023 which should be read in conjunction with the unaudited condensed consolidated financial statements (the "interim financial statements") of Dubai Aerospace Enterprise (DAE) Ltd ("DAE") and its subsidiaries (together and hereinafter "we" or "us"). References to "June 30, 2023" are for the six months ended June 30, 2023 and to "June 30, 2022" are for the six months ended June 30, 2022.

FINANCIAL HIGHLIGHTS

- Profit for the six months ended June 30, 2023 was USD 141.1 million compared to a profit before exceptional items of USD 140.1 million for the six months ended June 30, 2022. Profit for the six months ended June 30, 2023 was USD 141.1 million compared to a loss after exceptional items of USD 397.8 million for the six months ended June 30, 2022.
- Operating profit for the six months ended June 30, 2023 increased by USD 65.0 million to USD 319.8 million compared to operating profit before exceptional item of USD 254.8 million for the six months ended June 30, 2022 which is mainly attributed to increased lease revenue and reversal of loss allowance. Operating profit for the six months ended June 30, 2023 was USD 319.8 million compared to an operating loss after exceptional item of USD 321.7 million for the six months ended June 30, 2022. The exceptional item in 2022 pertains to an asset write-off of USD 576.5 million relating to certain aircraft in Russia not in the Group's control.
- Cash flows from operating activities for the six months ended June 30, 2023 decreased by 5.2% to USD 643.4 million compared to USD 678.5 million for the six months ended June 30, 2022. This is primarily due to higher maintenance reserve receipts in the prior period driven by the drawdown of letters of credit associated with aircraft previously leased to Russian customers. Excluding the impact of the letters of credit drawdown, net cash generated from operating activities for the six months ended June 30, 2023 increased by USD 42.2 million or 7.0% as compared to the prior period.
- Total assets were USD 12,224.4 million at June 30, 2023 compared to USD 12,709.1 million at December 31, 2022. This decrease was mainly due to aircraft sold and depreciation charge during the period.
- Available liquidity was USD 2,330.7 million at June 30, 2023 compared to USD 2,659.9 million at December 31, 2022. The Liquidity coverage ratio was 281.0% at June 30, 2023 compared to 341.0% at December 31, 2022.
- Net Debt-to-Equity ratio was 2.50:1 times at June 30, 2023 compared to 2.64:1 times at December 31, 2022.

OPERATIONAL HIGHLIGHTS

- Total number of aircraft in the fleet at June 30, 2023 was 429 (December 31, 2022: 440) which consisted of 322 owned (December 31, 2022: 330), 103 managed (December 31, 2022: 104) and four committed aircraft (December 31, 2022: six).
- During the six months ended June 30, 2023, we purchased two owned aircraft (June 30, 2022: eight) and five managed aircraft (June 30, 2022: 26) and sold or consigned ten owned aircraft (June 30, 2022: seven) and six managed aircraft (June 30, 2022: 20).
- The weighted average age of our owned fleet was 7.1 years at June 30, 2023 compared to 6.5 years at December 31, 2022. The weighted average remaining lease term of our owned fleet at June 30, 2023 was 6.0 years compared with 6.3 years at December 31, 2022.
- The ratio of unsecured debt to total debt was 73.3% at June 30, 2023 compared to 69.8% at December 31, 2022.

RESULTS OF OPERATIONS

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

DAE is a global aviation services company headquartered in Dubai serving customers in over 60 countries from seven locations in the United Arab Emirates, Jordan, Ireland, Singapore, and the United States of America. DAE conducts its activities through two divisions: (i) Aircraft Leasing (DAE Capital) and (ii) Engineering (DAE Engineering). The aircraft leasing division is engaged in acquiring and leasing commercial aircraft to airlines, selling, and trading aircraft, and managing aircraft on lease for third-party investors. The engineering division consists of an 80% ownership stake in Joramco, a provider of commercial aircraft maintenance, repair, and overhaul (MRO) services.

DAE is 100% indirectly owned by Investment Corporation of Dubai ("ICD"), the principal investment arm of the Government of Dubai.

DAE Capital

We are one of the largest aircraft leasing companies in the world. At June 30, 2023, we had a total owned, managed and committed fleet of 429 aircraft which was made up of 322 owned aircraft (including 11 aircraft classified as finance lease and loan receivables), 103 managed aircraft and commitments to acquire 4 new aircraft (two aircraft for our owned fleet and two aircraft for our managed fleet). Our owned and managed aircraft are on lease to 117 lessees in 60 countries.

As of June 30, 2023, the aggregate book value of our owned fleet, including aircraft pre-delivery payments, aircraft held-for-sale and finance lease and loan receivables, was USD 11,191.2 million. Future contracted lease rental income from our owned fleet amounted to USD 6,179.8 million. As of June 30, 2023, 98.0% of our leases were subject to fixed lease rates as a percentage of lease revenue.

Our lease portfolio is highly diversified, geographically and by airline, with our top five lessees representing 29.3% of our portfolio based on net book value as of June 30, 2023. Emirates, a related party, is our largest customer representing 10.3% of our fleet based on net book value. In addition, the estimated value of our managed fleet was USD 3.1 billion.

DAE Engineering

The Group's Engineering division operates under the brand name Joramco and is a leading independent provider of airframe MRO services in the Middle East with a track record in excess of 55 years. DAE has an 80% ownership stake in Joramco. Joramco's facility of over 100,000 square meters in size is strategically located in Amman, Jordan. DAE believes that the strategic location, combined with a skilled and experienced workforce of approximately 1,000 people giving it a man-hour capability exceeding one million per year, allows the Engineering division to offer a compelling value proposition to airline customers in the Middle East, Europe, Asia, Africa, and the CIS countries. Joramco focuses on providing airframe MRO services on Airbus, Boeing, and Embraer aircraft, with a comprehensive suite of MRO capabilities including interiors, composites, paint, and avionics.

Five aircraft hangars occupying more than 30,000 square meters of the Joramco facility can accommodate up to 17 wide body and narrow body aircraft at the same time. Joramco currently has 15 aircraft type approvals including the Boeing 737, 787 and 777 aircraft families, Airbus A320, A330 and A340 families, and Embraer E175 and E190 families and regulatory approvals from over 25 aviation authorities including EASA in the European Union, the FAA in the United States, and the CARC in Jordan.

Environment, Social and Governance Framework

DAE is committed to maintaining an effective Environmental, Social and Governance ("ESG") Framework. DAE's ESG Policy, Stakeholder Engagement Policy, and other relevant documents have been published to deepen our engagement with Stakeholders on ESG issues and hold ourselves accountable on our ESG journey and are available on DAE's ESG website.

DAE provides annual ESG Reporting to stakeholders which is presented in accordance with the Global Reporting Institute (GRI) Standards. DAE's most recent ESG Report, for the year ended December 31, 2022, was published on DAE's ESG website in April 2023 and fully incorporates all of the Group's activities. Limited Assurance has been provided by KPMG on certain metrics reported within DAE's ESG Report. KPMG's independent assurance statement is available within the ESG Report.

In the ESG Report, DAE set out targets which seek to continually enhance our ESG frameworks, and which further demonstrate DAE's commitment to effective ESG risk management. DAE provides annual updates on its progress against these targets in its ESG Report.

DAE holds an ESG Risk Rating of 14.6 from Morningstar Sustainalytics, who consider DAE's enterprise value to be of 'Low Risk' of material financial impacts driven by ESG factors. This is the lowest rating (lower the better) among rated aircraft lessors. There was a minor adjustment to DAE's ESG Risk Rating in April 2023 as a result of methodology revisions at Morningstar Sustainalytics. In January 2023, Morningstar Sustainalytics awarded DAE with its ESG Industry Top Rated and ESG Regional Top Rated accreditations, indicating that in 2022, DAE's ESG Risk Rating from Morningstar Sustainalytics was among the 50 lowest ratings issued by Sustainalytics in both DAE's industry (Trading & Distribution) and region (Middle East & Africa).

DAE also makes voluntary ESG disclosures through CDP, a global non-profit that runs the world's environmental disclosure system for companies, cities, states, and regions, which awarded DAE a 'C' score for its 2022 response, and S&P's Corporate Sustainability Assessment (CSA), in order to support our stakeholders' access to DAE's ESG disclosures and to improve transparency.

The latest ESG Report, Risk Rating Summary, Policy Documents, and further information is available on DAE's ESG website https://dubaiaerospace.com/esg/.

In 2022, DAE became an inaugural signatory of the Aircraft Leasing Ireland (ALI) Sustainability Charter which outlines ten priority sustainability principles focused on areas including Climate Action and Net-zero, Innovation and Clean Technology and Diversity & Inclusion.

DAE Capital has a young fleet with an average age of 7.1 years. As of June 30, 2023, 50% of DAE Capital's fleet were next generation and fuel efficient aircraft, and DAE Capital is committed to continue to grow the proportion of these aircraft in its fleet. By investing in these aircraft which have greater fuel efficiency, lower emissions, and a lower noise footprint, we are helping our airline customers reduce their impact on the environment.

DAE has a comprehensive aircraft end of life strategy. We work directly with our customers and industry partners to recycle end of life aircraft to reduce waste while maximizing the remaining value of the aircraft components and engines. Engines and landing gear from disassembled aircraft are, where possible, put to use elsewhere in the DAE fleet. Alternatively, engines are consigned and sold for disassembly. We encourage our aircraft recycling and dismantling service providers to comply with industry best practice including IATA's Best Practices for Aircraft Decommissioning, and where applicable to obtain AFRA (Aircraft Fleet Recycling Association) accreditation.

In addition, in its premises DAE supports a variety of internal environmental initiatives including the use of energy efficient lighting, water conservation and a continued focus on recycling and reducing waste. Furthermore, DAE encourages staff to communicate using the latest conferencing facilities leading to reduced travel between offices.

We also encourage commuting to work using public transport, walking, or cycling where appropriate to do so. We have a multi-cultural, diverse working environment with over 24 nationalities. In addition, at June 30, 2023, our DAE Capital business had a ratio of 60% male employees and 40% female employees. Through our Community Giving initiative we support a number of charities linked to our local offices and encourage staff to engage in physical and mental well-being activities. We maintain a robust corporate governance framework via our internal boards and committees.

DAE is committed to good corporate governance, which helps us compete more effectively, sustain success and build long-term shareholder value. DAE maintains strong corporate governance policies, procedures, and practices that foster board stewardship, management accountability, and proactive risk management. All our directors, employees, and contractors are expected to conduct themselves in accordance with the highest ethical and moral standards, as informed by our Code of Conduct, which is available on our website https://dubaiaerospace.com/corporate-governance/.

Six months ended June 30, 2023 compared to six months ended June 30, 2022

Total revenue

Total revenue comprises of (i) lease revenue from aircraft leasing, which also includes maintenance revenue (which comprises the release of maintenance reserves net of the derecognition of maintenance right assets) and is net of amortization of lease incentives and other lease costs, (ii) engineering maintenance service revenue which is derived from Joramco's engineering maintenance services and (iii) other income (which includes income from the management of aircraft on behalf of third parties, proceeds from the sale of spare parts and the release of security deposits).

The table below shows a breakdown of our total revenue for each of the six months ended June 30, 2023 and June 30, 2022.

Total Revenue *(in millions of USD)*	**Six months ended Jun 30**	
	2023	**2022**
Lease revenue	568.4	517.3
Maintenance revenue	32.6	26.9
Amortization of lease incentives and other lease costs	(27.4)	(29.3)
Net lease revenue	**573.6**	**514.9**
Engineering maintenance service revenue	69.1	54.9
Finance lease and loan receivables income	7.4	4.2
Total lease, engineering maintenance service revenue and finance lease and loan receivables income	**650.1**	**574.0**
Other income	20.0	8.8
Total revenue	**670.1**	**582.8**

Total revenue was USD 670.1 million for the six months ended June 30, 2023 compared to USD 582.8 million for the six months ended June 30, 2022, an increase of USD 87.3 million, or 15.0%, due to the reasons outlined below.

Net lease revenue increased by USD 58.7 million, or 11.4%, to USD 573.6 million for the six months ended June 30, 2023, from USD 514.9 million for the six months ended June 30, 2022. This increase was primarily driven by additional revenue generated by the aircraft acquired in the business combination last year.

Engineering maintenance service revenue increased by USD 14.2 million, or 25.9%, to USD 69.1 million for the six months ended June 30, 2023 compared to USD 54.9 million for the six months ended June 30, 2022.

Finance lease and loan receivables income increased by USD 3.2 million to USD 7.4 million for the six months ended June 30, 2023 compared to USD 4.2 million for the six months ended June 30, 2022.

Gain on disposal of aircraft

Gain on disposal of aircraft was USD 36.0 million for the six months ended June 30, 2023 compared to USD 55.7 million for the six months ended June 30, 2022. During the six months ended June 30, 2023, the Group sold/consigned ten owned aircraft compared to the sale/consignment of seven owned aircraft during the six months ended June 30, 2022.

Fluctuations in the gain or loss on disposal of aircraft are not only a function of the number of disposals but are also dependent on the type and age of aircraft, accounting adjustments for revenue earned from the economic closing date to the transfer of title to the buyer, as well as the prevailing market trading conditions in the underlying period.

Expenses

Expenses comprised (i) depreciation and amortization, (ii) asset write-off, (iii) general and administrative expenses, (iv) loss allowance, (v) cost of providing the engineering maintenance services provided by Joramco and (vi) aircraft maintenance.

The table below shows a breakdown of our expenses for the six months ended June 30, 2023 and June 30, 2022.

Total Expenses *(in millions of USD)*	**Six months ended Jun 30**	
	2023	**2022**
Depreciation and amortization	285.4	275.7
General and administrative expenses	48.9	43.0
Cost of providing engineering maintenance services	44.5	35.9
Reversal of/ (provision for) loss allowance	(9.0)	24.2
Aircraft maintenance	16.5	4.9
Total expenses before exceptional items	**386.3**	**383.7**
Exceptional item - asset write-off	-	576.5
Total expenses	**386.3**	**960.2**

Expenses for the six months ended June 30, 2023, increased by USD 2.6 million to USD 386.3 million compared to the expenses before exceptional items of USD 383.7 million for the six months ended June 30, 2022. Total expenses for the six months ended June 30, 2023 decreased by USD 573.9 million to USD 386.3 million compared to USD 960.2 million for the six months ended June 30, 2022.

Depreciation and amortization expense increased by USD 9.7 million, or 3.6%, for the six months ended June 30, 2023 to USD 285.4 million compared to USD 275.7 million in the prior period. This increase was primarily due to increase in the number of owned aircraft compared to the prior period.

General and administrative expenses increased by USD 5.9 million, or 13.8%, for the six months ended June 30, 2023 to USD 48.9 million from USD 43.0 million in the prior period.

Cost of providing engineering maintenance services increased by USD 8.6 million, or 24.0%, for the six months ended June 30, 2023 to USD 44.5 million from USD 35.9 million in the prior period. This increase reflects the corresponding increase in engineering maintenance services revenue over the same period.

Reversal of loss allowance was USD 9.0 million for the six months ended June 30, 2023 or a decrease of USD 33.2 million or 137.2% compared to the loss allowance charge of USD 24.2 million in the prior period. Further information can be found in the financial statements Note 16.

Aircraft maintenance increased by USD 11.6 million to USD 16.5 million for the six months ended June 30, 2023 from USD 4.9 million for the six months ended June 30, 2022. This increase was due to heavy maintenance costs related to aircraft returns and repossession.

In addition, asset write-off was USD 576.5 million for the six months ended June 30, 2022 compared to nil million in the current period. The asset write-off relates to the Group's net exposure to 19 aircraft in Russia not in the Group's control, and the leasing of which has been terminated.

Operating profit

Operating profit was USD 319.8 million for the six months ended June 30, 2023 compared to operating profit before exceptional items of USD 254.8 million in the corresponding period of 2022, an increase of USD 65.0 million, or 25.6%. This increase was attributable to the factors described in the preceding sections.

Operating profit was USD 319.8 million for the six months ended June 30, 2023, an increase of USD 641.5 million compared to an operating loss after exceptional items of USD 321.7 million in the corresponding period of 2022. This exceptional item in 2022 pertains to the asset write-off of USD 576.5 million relating to certain aircraft in Russia not in the Group's control.

Net finance costs

Net finance costs increased by USD 48.3 million, or 39.9%, to USD 169.4 million for the six months ended June 30, 2023 from USD 121.1 million for the six months ended June 30, 2022.

Finance income increased by USD 23.4 million, or 234.0%, to USD 33.4 million for the six months ended June 30, 2023 from USD 10.0 million for the six months ended June 30, 2022. This was due primarily to gains on financial instruments and higher deposit rates during the six months ended June 30, 2023 compared to the prior period.

Finance expense increased by USD 71.7 million, or 54.7%, to USD 202.8 million for the six months ended June 30, 2023 from USD 131.1 million for the six months ended June 30, 2022 due primarily to higher average loan balance during the current period and an increase in the average cost of debt to 4.6% for the six months ended June 30, 2023 from 3.0% for the six months ended June 30, 2022.

Income tax (expense)/ benefit

During the six months ended June 30, 2023, the Group recorded a tax expense of USD 9.3 million compared to a tax benefit of USD 45.0 million for the six months ended June 30, 2022. The income tax benefit for the six month period ended June 30, 2022 was primarily driven by the impact of the asset write-off relating to certain aircraft in Russia not in the Group's control.

Profit/(loss) for the period

Reflecting the above factors, profit for the six months ended June 30, 2023 increased by USD 1.0 million to USD 141.1 million from profit before exceptional items of USD 140.1 million for the six months ended June 30, 2022.

Profit for the six months ended June 30, 2023 increased by USD 538.9 million to USD 141.1 million from a loss after exceptional items of USD 397.8 million for the six months ended June 30, 2022 which includes the asset write-off of USD 576.5 million relating to certain aircraft in Russia.

Consolidated Cash Flows

The following table presents our consolidated cash flows for the six months ended June 30, 2023 and the six months ended June 30, 2022. Cash and cash equivalents shown below refer to unrestricted cash.

Consolidated cash flow (Extract) (in millions of USD)	**Six months ended Jun 30**	
	2023	**2022**
Net cash generated from operating activities	643.4	678.5
Net cash generated from investing activities	195.4	256.1
Net cash used in financing activities	(779.0)	(719.7)
Net increase in cash and cash equivalents	**59.8**	**214.9**
Cash and cash equivalents at the beginning of the period	299.9	350.4
Cash and cash equivalents at the end of the period	**359.7**	**565.3**

For the six months ended June 30, 2023 net cash generated from operating activities was USD 643.4 million, a decrease of USD 35.1 million, or 5.2%, from USD 678.5 million for the six months ended June 30, 2022 which is primarily due to higher maintenance reserve receipts in the prior period driven by the drawdown of letters of credit associated with aircraft previously leased to Russian customers. Excluding the impact of the letters of credit drawdown, net cash generated from operating activities for the six months ended June 30, 2023 increased by USD 42.2 million or 7.0% as compared to the prior period.

For the six months ended June 30, 2023 net cash generated from investing activities was USD 195.4 million compared to USD 256.1 million for the six months ended June 30, 2022. The movement was primarily due to net cash paid on acquisition of aircraft held for lease partially offset by higher proceeds from disposal of aircraft.

Net cash used in financing activities for the six months ended June 30, 2023 was USD 779.0 million compared to USD 719.7 million for the six months ended June 30, 2022. The movement was due to the share repurchase, increased debt repayments and cash interest paid which were partly offset by the loan drawdown during the six months ended June 30, 2023 compared to the six months ended June 30, 2022.

Our cash and cash equivalents as at June 30, 2023 was USD 359.7 million, an increase of USD 59.8 million from USD 299.9 million as at December 31, 2022.

Our total cash and cash resources, which includes restricted cash, was USD 446.0 million as at June 30, 2023 which represents an increase of USD 7.8 million compared to USD 438.2 million as at December 31, 2022.

Loans and Borrowings, Liquidity and Capital Resources

Loans and borrowings

Our total loans and borrowings (net of debt issuance costs) decreased to USD 7,602.2 million as at June 30, 2023 from USD 8,045.9 million at December 31, 2022. The decrease was primarily due to debt repayments and notes repurchases of USD 737.3 million and USD 205.0 million, respectively which was partially offset by loan drawdown of USD 500.0 million during the six months ended June 30, 2023.

At June 30, 2023 our level of unsecured debt was 73.3% compared to 69.8% at December 31, 2022. The average cost of debt as at June 30, 2023 was 4.6% which increased from 3.4% at December 31, 2022 and the weighted average debt maturity as at June 30, 2023 was 4.9 years compared to 4.5 years at December 31, 2022.

Loans and Borrowings (in millions of USD)

	Aircraft Collateral	Jun 30 2023
Unsecured		
Senior unsecured notes		2,976.3
Senior unsecured facilities (incl. revolving credit facilities)		2,647.7
Total unsecured		**5,624.0**
Secured		
Recourse obligations (incl. Ex-Im & EDC)	70	1,524.7
Senior secured notes	16	477.7
Non-recourse obligations	2	46.1
Total secured	**88**	**7,672.5**
Debt issuance costs		(70.3)
Net loans and borrowings		**7,602.2**

The Group holds 234 aircraft with a total net book value of USD 7,390.0 million which were unencumbered at June 30, 2023 and 88 aircraft which were used as collateral on our secured facilities. Further information of the loan facilities can be found in the financial statements, Note 13.

Our unsecured credit facilities at June 30, 2023 of USD 2.0 billion were undrawn and available.

We expect to meet our contractual payment obligations on future capital expenditure through a combination of equity, cash flows from operations, commercial debt raising activities and the utilization of revolving credit facilities in aggregate.

Liquidity and Capital Resources

Available liquidity was USD 2,330.7 million as at June 30, 2023 compared to USD 2,659.9 million as at December 31, 2022. Our total equity decreased to USD 2,901.0 million as at June 30, 2023 from USD 2,935.7 million as at December 31, 2022. Our Net Debt to Equity ratio was 2.50:1 times as at June 30, 2023 compared to 2.64:1 times as at December 31, 2022.

We believe that the sources of liquidity mentioned above, together with cash generated from operations, will be fully sufficient to operate our business and repay our debt maturities for at least the next 12 months.

Review report on condensed consolidated interim financial statements to the shareholders of Dubai Aerospace Enterprise (DAE) Ltd

Introduction

We have reviewed the accompanying condensed consolidated interim statement of financial position of Dubai Aerospace Enterprise (DAE) Ltd (the “Company”) and its subsidiaries (together the “Group”) as at June 30, 2023 and the related condensed consolidated statements of profit or loss and other comprehensive income for the three-month and six-month periods then ended, and condensed consolidated statements of changes in equity and cash flows for the six-month period then ended and other explanatory notes. Management is responsible for the preparation and presentation of these condensed consolidated interim financial statements in accordance with International Accounting Standard 34, ‘Interim Financial Reporting’ (‘IAS 34’). Our responsibility is to express a conclusion on these condensed consolidated interim financial statements based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, 'Review of interim financial information performed by the independent auditor of the entity'. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial statements are not prepared, in all material respects, in accordance with IAS 34.

1. Corporate information

Dubai Aerospace Enterprise (DAE) Ltd ("DAE or the "Company") (the Company and its subsidiaries are together referred to as the "Group") is the parent company of the Group. The Company is limited by shares and was incorporated on 19 April 2006 in the Dubai International Financial Centre ("DIFC") under the Companies Law, DIFC law No. 2 of 2004 which was superseded by DIFC law No. 5 of 2018. The Company's registered office is at L20-00, Level 20, ICD Brookfield Place, DIFC, PO Box 506592, Dubai, United Arab Emirates.

The Company's immediate parent is DAE Aviation Group Ltd, a DIFC incorporated entity, ("DAG"). DAG is owned by Investment Corporation of Dubai ("ICD"), ICD Hospitality & Leisure LLC ("ICD H&L") and Dubai Integrated Economic Zones Authority ("DIEZ"). ICD indirectly owns 100% of the Company and is therefore the ultimate controlling party of the Group. ICD is owned by the Government of Dubai.

The Group is made up of two divisions:

(a) DAE Capital – a provider of aircraft leasing and financing services to the global aviation industry; and
(b) DAE Engineering – a provider of commercial aircraft maintenance, repair and overhaul services. DAE Engineering consists of an 80% ownership stake in Jordan Aircraft Maintenance Limited ("Joramco").

The operational highlights for the Group's owned fleet for the six month period ended June 30, 2023 (the "period") are summarized below:

- The Group owned 322 aircraft at June 30, 2023 (December 31, 2022: 330 aircraft).
- Purchases – the Group purchased two aircraft during the period (June 30, 2022: 8 aircraft).
- Sales – the Group disposed of ten aircraft during the period (June 30, 2022: 7 aircraft).

The Group also manages 103 aircraft on behalf of third parties at June 30, 2023 (December 31, 2022: 104 aircraft). During the period, the Group acquired five managed aircraft (June 30, 2022: 26 aircraft) and completed the sale of six managed aircraft (June 30, 2022: 20 aircraft).

The condensed consolidated interim financial statements have been reviewed, not audited.

The condensed consolidated interim financial statements were approved on August 2, 2023 and signed by:

2. Basis of preparation

These condensed consolidated interim financial statements have been prepared in accordance with IAS 34 *Interim Financial Reporting*. These financial statements do not include all of the information required for full annual consolidated financial statements and should be read in conjunction with the consolidated financial statements of the Group as at and for the year ended December 31, 2022, which have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board.

The condensed consolidated interim financial statements have been prepared under the historical cost basis as modified for the valuation of certain financial instruments that are measured at fair value at the end of each reporting period, as explained in the accounting policies below.

The carrying values of recognized financial instruments that are designated as hedged items in fair value hedges that would otherwise be carried at amortized cost are adjusted to reflect changes in the fair value attributable to the risks that are being hedged.

The condensed consolidated interim financial statements have been presented in US Dollars (USD), which is the functional currency of the Group, and all values are rounded to the nearest thousands, except when otherwise indicated.

As at June 30, 2023, the current liabilities of the Group exceeded its current assets. The shortfall will be met by a combination of the operating cash flows of the Group, new and existing credit facilities, and other cash management initiatives. At June 30, 2023 the Group's undrawn credit facilities amounted to USD 1,971.0 million.

3. Accounting policies

The accounting policies adopted are consistent with those of the consolidated financial statements for the year ended December 31, 2022. A number of new and amended standards became applicable for the current period ended June 30, 2023. These new and amended standards did not have a material impact on the Group.

4. Critical accounting estimates and judgments

The preparation of condensed consolidated interim financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing these condensed consolidated interim financial statements, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at, and for the year ended, December 31, 2022.

5. Revenue

	Jun 30 2023 USD'000	Jun 30 2022 USD'000
Lease rental income	573,583	514,861
Engineering maintenance services revenue	69,104	54,861
Finance lease and loan receivables income	7,378	4,304
	650,065	**574,026**

Lease rental income includes the release of maintenance reserves totaling USD 32.6 million (June 30, 2022: USD 26.9 million). See further details in note 9.

Lease rental income also includes a net charge associated with the amortization of lease incentive assets of USD 23.2 million (June 30, 2022: USD 24.5 million) and other lease costs of USD 4.3 million for the period (June 30, 2022: USD 4.8 million).

Engineering maintenance services revenue of USD 69.1 million (June 30, 2022: USD 54.9 million) relates to commercial aircraft maintenance, repair and overhaul services provided by the Group through its engineering division.

Lease rental income from the top five customers represented 34.8% of the lease rental income for the six month period ended June 30, 2023 (June 30, 2022: 39.6%). Customers based in the United Arab Emirates, the Kingdom of Bahrain, and India accounted for 15.4%, 8.0%, and 5.6% of lease rental income respectively in the period ended June 30, 2023 (June 30, 2022: 19.0%, 9.2%, and 4.7%).

Lease rental income is derived mainly from leasing commercial jet aircraft to various operators around the world. The distribution of lease rental income by the operator's geographic region is as follows:

	Jun 30 2023 USD'000	Jun 30 2023 %	Jun 30 2022 USD'000	Jun 30 2022 %
Middle East	176,483	31%	186,589	36%
Americas	115,641	21%	93,152	18%
Asia Pacific	96,874	17%	102,083	20%
South Asia	59,522	10%	41,307	8%
Europe	48,741	8%	43,173	9%
Africa	36,453	6%	35,706	7%
China	39,869	7%	12,851	2%
Total lease rental income	573,583	100%	514,861	100%

Lease rental income by geographic regions for the comparative prior period have been reclassified to conform to the current period's presentation.

6. Finance income and expense

	Jun 30 2023 USD'000	Jun 30 2022 USD'000
Gains on financial instruments	15,017	4,188
Interest on bank accounts and short-term investments	10,205	1,392
Interest from investments	1,593	853
Net foreign exchange gain	582	2,038
Other finance income	6,006	1,643
Total finance income	**33,403**	**10,114**
Interest on borrowings	(184,000)	(112,503)
Amortization of debt issuance costs	(16,562)	(16,761)
Lease interest expense	(991)	(1,012)
Other charges	(1,246)	(844)
Total finance expense	**(202,799)**	**(131,120)**
Net finance cost	**(169,396)**	**(121,006)**

Gains on financial instruments relate to gains on the repurchase of senior notes.

7. Asset write-off

The Group previously leased 22 aircraft to airlines based in Russia. In compliance with applicable sanctions, the Group terminated the leasing of these aircraft during the period ended March 31, 2022. In response to the sanctions imposed, the Government of the Russian Federation, took steps including issuing a number of decrees which provide, amongst other things, that Russian airlines are required to obtain governmental approval for the redelivery of aircraft to foreign lessors. Under these circumstances, the Group has no control over 19 aircraft that are currently in Russia. The Group is unable to determine whether these aircraft will be returned at any point in the future.

Accordingly, the Group has written-off its net exposure in respect of the19 aircraft and this resulted in a net exceptional write-off before tax of USD 576.5 million (in relation to aircraft held for lease, maintenance reserves and security deposits and other assets and liabilities) during the three month period ended March 31, 2022 (4.6% of total assets before the write-off). Despite the write-off, the Group's liquidity and capital adequacy ratios remain strong.

The Group has insurance cover in respect of the 19 aircraft under a number of insurance policies and has filed insurance claims and a litigation claim to recover amounts due under the policies.

8. Income tax expense

	Jun 30 2023 USD'000	Jun 30 2022 USD'000
Current tax expense		
Current period	100	74
Deferred tax expense/(benefit)		
Origination and reversal of temporary differences	9,283	(45,043)
Total income tax expense/(benefit)	**9,383**	**(44,969)**

Reconciliation of effective tax rate

	Jun 30 2023 USD'000	Jun 30 2022 USD'000
Profit/(loss) before income tax	150,442	(442,753)
Tax on profit at the United Arab Emirates statutory rate of 0%	-	-
Reconciling items		
Net profit/(loss) taxable in Ireland at 12.5%	7,393	(77,158)
Net profit/(loss) taxable at other rates	60	(463)
Non-deductible interest expense	290	506
Impact of tax losses not recognized	1,492	32,079
Other permanent differences	148	-
Adjustment to prior period	-	67
Total income tax expense/(benefit)	**9,383**	**(44,969)**

The income tax expense for the six month period ended June 30, 2023 was primarily driven by the tax impact of the Group's Irish activities at 12.5%. The income tax benefit for the six month period ended June 30, 2022 was primarily driven by the impact of the asset write-off relating to certain aircraft in Russia not in the Group's control.

At June 30, 2023	**10,530,811**	**-**	**201,396**	**107,705**	**10,839,912**

As of June 30, 2023, the Group owned 322 aircraft (December 31, 2022: 330 aircraft), including 311 aircraft held for lease on an operating lease basis (December 31, 2022: 319 aircraft) and 11 aircraft recognized as finance lease and loan receivables (December 31, 2022: 11 aircraft). During the period, the Group sold ten aircraft (June 30, 2022: seven aircraft), purchased two aircraft (June 30, 2022: eight aircraft). During the period ended June 30, 2022 two aircraft were transferred from finance lease and loans receivables to aircraft held for lease.

During the period, the Group derecognized USD nil (June 30, 2022: USD 23.0 million) of maintenance right assets related to aircraft which were redelivered to the Group during the period. An amount of USD nil has been recognized as a maintenance reserve release in relation to these aircraft (June 30, 2022: USD 30.1 million). These amounts are netted within revenue in the consolidated statement of comprehensive income.

9. Aircraft held for lease (continued)

The Group's obligations under its secured loans are secured by charges over, amongst other things, the Group's aircraft and related assets details of which are included in note 13.

As at June 30, 2023, management performed an assessment as to whether any new impairment triggers were applicable to the Group's aircraft since December 31, 2022. No new impairment triggers were identified for the Group's aircraft held for lease at June 30, 2023.

10. Trade and other receivables

Finance leases

As at June 30, 2023, the Group owned six aircraft under finance lease agreements (December 31, 2022: six aircraft). The Group's finance lease receivables are secured by the Group's title to the leased assets.

During the year ended December 31, 2022, one aircraft was transferred to aircraft held for lease following the termination of the leasing of the aircraft.

Loan receivables

During the year ended December 31, 2022 and as part of the Sky Fund I business combination, the Group acquired certain leased aircraft which were initially purchased via sale and leaseback transactions. The purchase did not meet the requirements of IFRS 15 as the transactions represent, in substance, financing arrangements and therefore, are classified as loan receivables. During the period ended June 30, 2023, the purchase option on these leased aircraft were extended from 2023-2024 to 2029.

As at June 30, 2023, the Group holds 5 aircraft classified as loan receivables (December 31, 2022: 5 aircraft). During the year ended December 31, 2022, one aircraft was transferred to aircraft held for lease following the termination of the leasing of the aircraft.

The gross amounts receivable and unearned interest income are as follows:

	Jun 30 2023 USD'000	Dec 31 2022 USD'000
Gross receivables	414,173	180,483
Unearned interest income	(83,016)	(12,913)
Total non-current finance leases and loan receivables	**331,157**	**167,570**

	351,326	**351,326**	**364,648**	**364,648**

The expected credit loss of the Group's finance lease receivables is assessed based on historic loss rates and the carrying value of the finance lease receivable net of collateral held. No material expected credit loss has been recognized on the Group's finance lease and loan receivables.

16. Risks and uncertainties

In preparing these condensed consolidated interim financial statements, the risk and uncertainties borne by the Group were the same as those disclosed in the consolidated financial statements as at, and for the year ended, December 31, 2022. Therefore, the condensed consolidated interim financial statements should be read in conjunction with the consolidated financial statements for the year ended December 31, 2022.

Credit risk

The Group has granted rental deferrals to certain customers. Accrued revenue represents lease payments deferred by the Group which are not yet billed or due from the customer. The Group continues to recognize revenue on a straight-line basis.

At June 30, 2023 the Group has 19 deferral agreements in place (December 31, 2022: 21). The total amount accrued was USD 94.0 million at June 30, 2023 (December 31, 2022: USD 128.3 million) and a loss allowance of USD 24.7 million (December 31, 2022: USD 33.1 million) has been recognized related to these amounts.

In addition, the Group has recognized trade receivables which relate to amounts due from customers which are not in deferral agreements.

Credit risk (continued)

Details of outstanding balances are as follows:

	Jun 30 2023 USD'000	**Dec 31 2022** USD'000
Trade receivables	53,273	80,384
Loss allowance	(23,658)	(39,919)
Trade receivables, net	**29,615**	**40,465**
Accrued revenue (within other assets)		
Current - due within 1 year	23,022	30,775
Non-current - due after 1 year	70,986	97,536
Loss allowance	(24,692)	(33,113)
Accrued revenue, net	**69,316**	**95,198**

The majority of the Group's exposure to credit risk relates to the leasing of aircraft. The recovery of trade receivables is highly dependent upon the financial strength of the commercial aviation industry.

As a result of improved collection from customers, the Group recognized a reversal of loss allowance on trade receivables of USD 0.6 million (June 30, 2022: charge of USD 12.1 million) and on accrued revenue of USD 8.4 million (June 30, 2022: charge of USD 12.1 million). The reversal of the loss allowance for the period is calculated in line with methodology outlined in our consolidated financial statements for the year ended December 31, 2022. During the period the following movement in the loss allowance was recognized:

	Jun 30 2023 USD'000	**Dec 31 2022** USD'000
At the beginning of the period/year	73,032	115,391
(Reversal of) / provision for loss allowance	(9,025)	21,210
Utilization of loss allowance	(15,657)	(63,569)
At the end of the period/year	**48,350**	**73,032**

Fair value estimation

The levels of fair value hierarchy are defined as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

16. Risks and uncertainties (continued)

Fair value estimation (continued)

Derivatives and investments are carried at fair value and fall into Level 2 of the fair value hierarchy. Derivatives comprise interest rate swaps. The fair value of financial assets is determined using widely accepted valuation techniques including discounted cash flow analysis on the expected cash flows of each financial asset. This analysis reflects the contractual terms of the financial assets, including the period to maturity, and uses observable market based inputs including interest rates, foreign-exchange rates, and implied volatilities. There were no changes made to any of the valuation techniques applied as at December 31, 2022.

17. Related party transactions

For the purpose of these condensed consolidated interim financial statements, parties are considered to be related to the Group, if the Group has the ability, directly or indirectly, to control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Group and the party are subject to common control and the key management personnel of the Group. Related parties may be individuals or other entities.

Transactions with related parties included in the condensed consolidated interim statement of profit or loss and other comprehensive income are as follows:

- During the period, the Group received an amount of USD 86.2 million (June 30, 2022: USD 110.9 million) being aircraft lease rentals, including release of maintenance reserves, from companies under common control.
- The Group also provided engineering maintenance services to companies under common control amounting to USD 5.1 million (June 30, 2022: USD 0.5 million).
- Finance expense for the period in respect of loans from related companies under common control amounts to USD 57.8 million (June 30, 2022: USD 15.6 million).

Compensation of key management personnel for the period:

	Jun 30 2023 USD'000	**Jun 30 2022** USD'000
Salaries and other benefits	6,171	6,189

18. Capital commitments

At June 30, 2023 the Group had committed to purchase 2 aircraft from Boeing, scheduled to deliver between 2023 and 2025. The total capital commitment based on the current market value of the underlying assets is USD 0.3 billion.

The Directors anticipate that a portion of the aggregate purchase price for the purchase of aircraft may be funded by incurring additional debt. The exact amount of the indebtedness to be incurred will depend upon the actual purchase price of the aircraft, which can vary due to a number of factors, including inflation, and the percentage of the purchase price of the aircraft which must be financed.

19. Segment reporting

The Group's CODM monitors the operating results of its business units for the purpose of making decisions about performance assessment. The aircraft leasing business, which leases commercial aircraft, is the main reportable segment. Engineering maintenance services is another reportable segment which consists of an 80% stake in Joramco which provides commercial maintenance, repair and overhaul services.

The performance of the aircraft leasing and engineering maintenance services is evaluated based on segment profit or loss and is measured consistently with profit for the year in the consolidated financial statements.

Segment revenue is measured in a manner consistent with that in the consolidated income statement.

Segment assets are measured in the same way as in the financial statements. These assets are allocated based on the segments in which they operate and are owned.

	Aircraft leasing USD'000	**Engineering maintenance** USD'000	**Group** USD'000
Jun 30, 2023			
Total segment revenue	601,007	69,104	670,111
Segment profit for the period	131,007	10,052	141,059
Jun 30, 2022			
Total segment revenue	527,982	54,861	582,843
Segment (loss) / profit for the period	(402,758)	4,974	(397,784)
Segment assets			
Jun 30, 2023	12,110,951	113,433	12,224,384
Dec 31, 2022	12,600,616	108,496	12,709,112

The results and financial position of the engineering maintenance division include the impact of purchase price accounting and do not represent the results or financial position of Joramco as a standalone business.

20. Implementation of UAE Corporation Tax Law, Global Anti-Base Erosion Rules and application of IAS 12 Income Taxes

The UAE Corporate Income Tax is, as a result of Cabinet Decisions issued in 2023, regarded as substantively enacted within the meaning of IAS 12. Current taxes will only be payable for financial years beginning on or after June 1, 2023 so the Group's UAE activities, to the extent any are regarded as taxable at the 9% rate, will only be subject to current tax for the first time during the year ending December 31, 2024.

The enactment of the legislation requires a Group with taxable activities to record deferred taxes using the enacted rate of 9%. However, as the Group does not have any differences between the existing tax bases of its asset and liabilities and the carrying amount of such assets and liabilities in the consolidated financial statements, no temporary differences are present which would require the recognition of a deferred tax in the event that the Group did have any activities subject to tax at 9%.

The Corporate Tax Law also provides for a 0% tax rate to apply to the Qualifying Income of Qualifying Free Zone Persons. The Group is of the view that all of its UAE operations are conducted within Free Zones in the UAE and broadly expect the income of its UAE operations should be regarded as Qualifying Income based on the definitions provided in the Ministerial and Cabinet Decisions issued across 2023. However, a Free Zone Public Consultation process is ongoing in relation to certain elements of the proposed framework for the classification of Qualifying and Excluded Activities as they are relevant to the application of the 0% tax rate. The outcome of the Public Consultation process and the impact of any future changes arising from such will be monitored and accounted for if and when such changes are substantively enacted or enacted.

In addition, the Global Anti-Base Erosion Rules ("GloBE Rules") introduced by the Organisation for Economic Co-operation and Development's Inclusive Framework on Base Erosion and Profit Shifting are yet to be adopted in the UAE, Ireland and the other jurisdictions in which the Group currently operates except the United Kingdom. The Group's subsidiaries that are affected by the GloBE Rules have applied the temporary exception as per IAS 12 Income Taxes and have therefore not recognized or disclosed information about deferred taxes and liabilities in relation to the tax obligations that may arise from the GloBE Rules.
